List of Contents

NUMBER 1/2

D. Dworak and **J. Łoskiewicz**	1	A comparison of multigroup neutron cross-sections obtained from the ENDF/B-IV library with the Abagyan–Bondarenko (ABNC) library as used in geophysical calculations
W. R. Mills, D. C. Stromswold and **L. S. Allen**	13	Die-away of epithermal neutron capture gamma-rays following a neutron pulse
B. E. Lukhminsky, Ju. S. Ljutostansky, V. I. Ljashuk and **I. V. Panov**	21	Monte Carlo methods in mining nuclear geophysics—II. Estimation of secondary processes in geological media
A. B. Tanner	25	Error in measuring radon in soil gas by means of passive detectors
J. Liu, J. L. Carroll and **I. Lerche**	31	A technique for disentangling temporal source and sediment variations from radioactive isotope measurements with depth
T. V. Ramachandran	47	Measurement of thoron daughter activity levels at monazite belt areas of south India using passive detectors
C. Papastefanou	51	High-level ^{7}Be concentrations in air after the SN 1987 A supernova outburst in the Large Magellanic Cloud on 23 February 1987
P. Wyszomirski and **J. Janczyszyn**	53	Instrumental neutron activation analysis of Lower Silesian kaolins (Poland): a study on rare earth elements

International Atomic Energy Agency Meetings Contributions

J. S. Schweitzer	65	Nuclear techniques in the oil industry†
H. C. Sun, J. Q. Zhao, R. X. Zhang, C. L. Zhou, H. F. Ni, S. Y. Wu, G. S. Wuru, J. S. Wang, R. J. Han, B. H. Han, G. K. Ho, H. P. Liang, Q. X. Zhang, Z. C. Li, Z. H. Cheng and **Z. Q. Xia**	91	Natural gamma-ray spectrometer with HPGe detector for petroleum well logging*
V. D. Bang, L. D. Dien, N. Q. Hai, V. T. Ha, N. T. Nguyen, H. A. Tuan and **N. Q. Trung**	95	A new approach to the problem of thermal neutron absorption cross section determination for small samples*
J. A. Czubek, K. Drozdowicz, B. Gabańska, A. Igielski, E. Krynicka-Drozdowicz and **U. Woźnicka**	101	Advances in absolute determination of the rock matrix absorption cross section for thermal neutrons*
M. Y. Sun	109	Radiotracer well logging in the petroleum industry in China*
M. Borsaru, J. Charbucinski, P. Eisler and **C. Ceravolo**	117	Neutron–gamma logging in coal seams of variable iron content*
J. Q. Zhao, J. S. Liu, H. F. Ni, D. Liu, G. S. Wuru, T. C. Guo, S. Y. Wu and **J. L. Liu**	123	Neutron capture gamma-ray spectral well logging using a ^{252}Cf–HPGe probe*
E. L. Hoffman	131	The use of instrumental neutron activation analysis for the mineral industry*

H. Tominaga and I. Ishikawa — 137 — Benefits from new applications of new types of gauges using nuclear techniques in the iron making process†

Q. Bristow and R. G. Harrison — 141 — Theoretical and experimental investigations of the distortion in radiation spectra caused by pulse pileup*

K. M. Dede, A. Boufraqech, A. Demény, J. Kuti Darai and L. Vas — 187 — Spectrum distortion in pulsed neutron measurements on non-moderating media*

J. Thýn — 193 — Radiotracer techniques in the mineral industry†

A. C. Eapen, S. M. Rao and T. S. Murthy — 205 — Status and trends in nuclear techniques in the mineral industry in India*

NUMBER 3

W. R. Mills, D. C. Stromswold and L. S. Allen — 209 — Advances in nuclear oil well logging

J. L. Pinault — 229 — Application of the Monte-Carlo method to simulate neutron–gamma logging tool behaviour

V. A. Artsybashev — 247 — Heterogeneity theory in nuclear geophysics—I. Basic heterogeneity theory

V. A. Artsybashev — 257 — Heterogeneity theory in nuclear geophysics—II. Applications of heterogeneity theory to energy dispersive x-ray fluorescence and neutron methods

P. K. Harvey, M. A. Lovell and J. F. Bristow — 267 — The interpretation of geochemical logs from the oceanic basement: mineral modelling in Ocean Drilling Program (ODP) Hole 735B

Z. Yu, I. Lerche, D. F. Williams, D. Trainor and N. Healy-Williams — 279 — Application of a matched filter method to enhance signal-to-noise ratios in geological time series

C. B. Ward — 291 — Assay of gold ores by neutron activation

N. R. Das, T. K. Baidya, P. S. Chakraborty and S. N. Bhattacharyya — 297 — Neutron activation studies on the distribution of gold in some metasomatic zones of the Jabarban–Belamu area in the district of Purulia, West Bengal, India

A. Perlwitz, C. S. Erasmus and A. E. Pillay — 303 — Determination of some noble metals in komatiite rock by reactor neutron activation analysis

N. R. Das, D. Basu and S. N. Bhattacharyya — 307 — Multimode analysis of traces of niobium in a geological matrix by charged particle activation

C. Oliveira and J. Salgado — 315 — Analysis of fast neutron flux distributions in bulk coal by Monte Carlo simulation studies

C. Oliveira and J. Salgado — 329 — Analysis of thermal neutron flux distributions in bulk coal by Monte Carlo simulation studies

E. J. Uwah — 339 — Determination of the ash content of some Nigerian coal samples by gamma-ray methods

Yu. N. Pak and A. V. Vdovkin — 345 — The gamma annihilation method of controlling ash-content in coals

J. Dowgiałło, A. Sadurski, J. Beer, G. Bonani, H. A. Synal and W. Wölfli — 353 — ^{36}Cl in groundwater of the Upper Cretaceous aquifer in the Gdańsk area (Poland)

Lakhwant Singh, Jaspal Singh, Surinder Singh and H. S. Virk — 361 — Fission track age of hydrothermal uranium veins in phlogopite and phase differentiation in minerals

K. Rozanski, W. Stichler and P. Schwarz	365	Performance of 2000CA/LL and 2260XL liquid scintillation spectrometers for low-level tritium and carbon-14 analyses
W. R. Mills, L. S. Allen and D. C. Stromswold	373	Comments on "The Monte Carlo method in mining nuclear geophysics—1. The application of neutron generators" (Burmistenko and Lukhminsky)

NUMBER 4

C. G. Clayton	III	Editorial
Arthur G. Darnley	377	The development of airborne gamma-ray spectrometry: case study in technological innovation and acceptance
J. L. Pinault	403	Application of the MOCA Monte-Carlo code to simulate gamma–gamma logging tool behaviour for density measurements in mining areas
M. W. Mickael	421	A study of Monte Carlo modelling errors for neutron porosity instrument responses
R. P. Gardner and K. Verghese	429	Monte Carlo nuclear well logging benchmark problems with preliminary intercomparison results
A. E. Bussian, W. A. Jeter and I. R. Supernaw	439	A method for measuring thermal neutron absorption and transport cross sections
Charles C. Watson and Darwin V. Ellis	451	Remarks on the iterative smoothing and deconvolution of data sequences
J. S. Watt, H. W. Zastawny, M. D. Rebgetz, P. E. Hartley and W. K. Ellis	469	Determination of flow velocity of the liquids in oil/water/gas mixtures by dual energy gamma-ray transmission
M. D. Rebgetz, J. S. Watt and H. W. Zastawny	479	Determination of the volume fractions of oil, water and gas by dual energy gamma-ray transmission
B. D. Sowerby	491	On-line nuclear techniques in the coal industry
Mª Cruz Alvarez and Mª Teresa Dopico	507	A preliminary study of the possibility of determining the ash content of Spanish coals on-line by measuring the natural gamma-ray activity
Mª Cruz Alvarez, T. Dopico and J. L. Riesgo	513	Determination of ash content and gross calorific value of Spanish coals by energy dispersive x-ray fluorescence (EDXRF)
Y. Shirakawa	519	A feasibility study to determine the carbon and oxygen contents of steel using fast neutron techniques
J.-M. Punning, R. Vaikmäe and S. Mäekivi	529	Oxygen-18 variations in the Baltic Sea
D. Chultem, N. Norov, J. Ganzorig and N. Gansukh	541	A study of uranium/radium disequilibrium by the spectral line centroid expansion method
B. S. Amin, Rama and A. S. Tamhane	547	Implantation efficiency of 100 keV ^{220}Rn ions in mica, aluminium and copper
Rolf J. Rosenberg	555	Neutron activation analysis in geological research and mineral exploration—the Finnish experience
B. S. Pallah, V. K. Mittal and H. S. Sahota	563	Physico-chemical and neutron activation analysis of drinking water at Ambala Cantonment, India

Technical Note

G. L. Mathis and C. W. Tittle 571 Addendum to "Three-dimensional neutron diffusion theory within a borehole environment" by G. L. Mathis and C. W. Tittle

Letters to the Editor

R. L. Grasty 573 A general comment

R. L. Grasty 573 On "Influence of moisture content on radon diffusion in soil" by M. Singh, R. C. Ramola, S. Singh and H. S. Virk

M. Singh, R. C. Ramola, S. Singh and H. S. Virk 574 Response

Book Review 575
